“Leading Your District Through the Maze”

Leadership Training Institute
 for SWCD Supervisors
 August 17 & 18, 2007
 French Lick Resort

Join us as Janet Ayres shows us how to turn these changes into opportunities!

This Leadership Training is brought to you by the Indiana Conservation Partnership's Leadership Development Work Group and the S SE and the S SW IASWCD Regions.

“Who Moved My Cheese?”

Using an analogy of searching for cheese in a maze, a short video based on the book, “Who Moved My Cheese?” will help us see different ways we react when change impacts our way of doing business.

With all the changes affecting districts, now is a great time to look at who we are, and what we need to do to maximize the new opportunities to improve local soil and water resources.

Districts need clear vision, planning, and action to come through change in a positive way. Supervisors need to lead the process.

Join us as Janet Ayres, Leadership Development Specialist - Purdue University, sets the stage for us to navigate change together.

We’ll enjoy refreshments, the short video and a very lively discussion on how to use the rapid changes as springboards to achieve the goals of our Districts.

Supervisors will learn how people process change and how to develop a positive plan to move your district forward and turn change into opportunities.

“Leading Your District Through the Maze”

A Hands-on Workshop
Led by Janet Ayres, Leadership Development Specialist,
Purdue University

Workshop Begins at 1:30 PM EDT (Indy time) August 17,
and ends at Noon EDT, Saturday, August 18

French Lick Resort, French Lick, IN

Participants will learn the results of the Myers Briggs Type Indicator (taken prior to August 17) that reveals basic personality characteristics. These characteristics affect how individuals view situations; communicate; make decisions; and approach change. The session will focus on understanding the basics of personality type and how it relates to relationships in Districts - staff, boards, partners, and community relationships. Because this information is also very useful in marriages, parenting and other arenas of life, spouses are invited to complete the Myers Briggs Type Indicator and participate in this session.

On Friday evening, choose to participate in the optional tour of the West Baden Hotel, billed the Eighth Wonder of the World.

Dinner will be on your own at one of the numerous eating establishments ranging from the upscale Sinclairs and 1875 to more moderately priced buffets and fast food establishments.

On Saturday morning, participants will learn the importance of leadership in times of change, discover new leadership skills to navigate through the issues SWCDs are facing, and begin working together to develop new strategies and opportunities for Districts. The session will close with a local community leader speaking on the “value of your districts to their community and adding value for the future.”
